Summary

Highly motivated and disciplined aspiring full-stack developer with strong problem-solving skills and a focus on personal growth. Proficient in frontend technologies (HTML, CSS, JavaScript, React, Next.js) and backend development (Python, C, SQL, PostgreSQL, REST APIs), with experience building projects like web applications, data analysis tools, and algorithm-based solutions. Strong foundation in data structures, algorithms, and full-stack development, combined with a passion for learning and delivering high-quality, scalable solutions.

Education

Bachelor of Technology - Computer Science (Artificial Intelligence and Machine Learning)

Lakshmi Narain College of Technology, Bhopal
2024 – present

Skills

- Programming Languages: Python, C, C++
- Libraries & Frameworks: OpenCV, TensorFlow, PyTorch, scikit-learn, Pandas, NumPy
